Passage (2)

Professor Mahmoud Hessaby was born in 1903 in Tafresh, Iran, he lived 89 years and died in 1992. During his life he lived, studied and worked in different countries. In his early years of life he went to Lebanon, where he completed secondary school and studied Civil Engineering, Mathematics, History, Literature, Biology and Astronomy. He then went to Paris and studied Electrical and Mining Engineering and received degrees for them. Then he finally turned to physics and at the age of 25 he received his Ph.D. in this field. He once said that "I went first into medicine, then into Engineering and then I decided that it was physics, which could keep me busy and captivate me" (qtd. in "A Brief Biography of Professor Mahmud Hessaby" 16) He then went to Princeton, U.S.A. to work on his theory. After the completion of his work he went back to Iran, and greatly contributed to the development and modernization of his country.
