 - d. we need complete freedom to live happily

B. Read the following passage then answer the questions.

Speaking a foreign language is what most people want. Every year many people start learning one. Some people try at home with books and tapes.

Α

Some use the radio or T.V programs; thousands go to evening classes. If they use the language only 2 or 3 times a week, it will take some time to learn a language, like language learning at school. Some people try to learn a language fast by studying for 6 hours or more a day. Some travel to the country where the language is spoken to learn it. However, most people do not have enough money to go to other countries. Some people need the language to do their work better. For example, students, doctors, and scientist need to read foreign books and reports. Other need it for other purposes.

Whether the language is learnt quickly or slowly, it is hard work. Laboratories and good books and tapes will help, but nothing can be as effective as a good teacher.
